

Punta Cana in the Dominican Republic

The Junket Experience

When you arrive at the airport in Punta Cana you quickly move through immigration, pick up your bags and go directly to the Hard Rock ground transportation kiosk in the main lobby. The friendly staff immediately gets you into the transportation for the 25 minute ride to the resort.

Entering the main building you begin to experience one of the worlds most luxurious "ALL INCLUSIVE" resorts. You would think you were in one of the major Las Vegas Strip themed resorts, without the costly charges.

At check in you will receive a wrist band that facilitates your access to all amenities during your stay. Amenities of which there are so many, you will not be able to enjoy all of them in one trip. Again let me remind you that all restaurants, cafes and bars throughout the entire property and pool areas are all included in your stay. Also included is 24 hour room service, bottled alcohol in your room and wine service with your meals. Don't forget to ask us about the resort credits that you automatically receive on check-in that can be applied to spa and salon services, golf, wine upgrades, resort photographic services etc.

This is truly HARD ROCK, with over 1,800 Hard Rock themed suites and 12 full size swimming pools (including a private adult only pool) spread throughout the

property. The Caribbean Suites are about 600 square feet with luxurious beds and linen, oversized bathrooms with enormous glassed in double head showers, in-floor double Jacuzzi, large flat screen TV's and large balconies with comfy chairs and lounges. Telephone service from your room back to the United States is complimentary.

The all inclusive dining gives you total variety without worrying about cost. Remember wine is also included.

The casino is the newest, largest and most modern gaming room in all the Caribbean. It is 48,000 square feet of gaming fun with 400 slot machines and 40 table games. There is also a first class Salon Prive, a huge poker room and an 80 screen state of the art sports book.

We have very competitive table limits to accommodate most of our players needs, probably the strongest in the Islands.

Players who meet the liberal play/comp requirements are comped at the end of their trip, lesser qualified players may pay a partial bill.

If you are thinking about a vacation with your children or grandchildren, this is the location. The resort has family buildings that lead to the special children's pool, lazy river ride, climbing wall, tennis, outdoor basketball court, inter-active arcade and pirate themed 18 hole miniature

golf course. The resort even has special family suites to accommodate the kids.

Transportation is available around the property 24 hours a day for anyone who does not wish to take advantage of getting some wonderful fresh air exercise walking around the very safe and secure property with its manicured lawns, flower gardens, fountains, pools, bridges and ocean front.

For more information about the property see Sally Friedman's article on page 18. ♦

Eddie Lynn mentions that we now have a team of over 60 professional junket marketing agents working out of over 50 North American, South American and International cities. Interested players can contact the Hard Rock Casino Punta Cana Players Club at 1-809-731-0099 ext 4751 hosts@hardrockcasinopuntacana.com.
